“Wayne is a creative genius. He is really an alchemist, taking different disciplines and transforming them into exceptional real estate investments. Wayne’s mastery of creative financing can’t be fully described; it must be experienced.”

—Robert Kiyosaki
Best Selling Author
“Rich Dad Poor Dad”

Mr. Palmer is one of the most respected names in real estate investing. He is a long term industry veteran with a proven track record who has gained substantial notoriety through his role as advisor to Robert Kiyosaki, investor and author of record best selling "Rich Dad Poor Dad".

Mr. Palmer is a principal of National Note of Utah and began his real estate career in 1976. He has extensive experience in sales and development, and he is widely regarded as one of the brightest minds in creative real estate financing.

"They say necessity is the mother of invention," comments Palmer. "Back in the early 80's, interest rates were sky high, so you had to be creative or you didn't survive. Today interest rates are low, but financing is still hard to get - so creativity has once again become a necessity." For more about Wayne see <http://waynepalmer.com/>
